Projects

TMDB Movie App [🔗](#)

TMDB Movie App Built a responsive movie discovery web application using React.js, Redux, and Tailwind CSS, integrated with The Movie Database (TMDB) API to fetch trending movies, TV shows, and detailed information. Implemented features like dynamic search, category-based filtering, and state management for smooth user experience. Due to API restrictions on certain ISPs like Jio, the app may not load on those networks (works fine on others).

Globalshiksha [🔗](#)

Delivered a 60-page SEO-optimized website using HTML5, Bootstrap, and PHP, resulting in a 20% traffic increase.

WMC Personal Care(Walmart Brand Page) [🔗](#)

Developed and optimized UI components to enhance user engagement on the Walmart brand site.
