Profile

Front-end Developer with **4.7+ years** of experience building scalable, responsive web and mobile applications using HTML5, CSS3, JavaScript, **ReactJS**, **React Native**, **TypeScript**, and SCSS. Proven expertise in delivering high-quality UIs for high-traffic products like **Walmart** ⧉ , **RummyCircle** ⧉ , and **Wowzy Ludo** ⧉ .

Professional Experience

Games24x7, Frontend Developer ⧉   01/2025 – 09/2025 | Bangalore, India
- Developed and maintained reusable, scalable frontend components for **RummyCircle** and **Wowzy Ludo** using React and React Native, driving seamless user experiences across multiple platforms.
- Implemented **optimised animations** using **React Native Animated,** improving user engagement and interaction for over 200 million active users.
- Contributions included creating reusable components, improving application efficiency, translating designs into high-quality code, integrating **APIs**, and ensuring seamless data flow between frontend and backend systems. Also optimized components for maximum performance across different devices and browsers.
- Experience with Docker and **CI/CD** pipelines using Jenkins and **Gitbucket** CI for automated deployments.
- Enhanced and maintained a flexible **content management system (CMS)**, enabling administrators to easily customize and update frontend content.
- Created a knowledge base for **Cursor** to integrate the **Figma-to-Code** pipeline, reducing development time by **40%**.

Tech Mahindra, Software Engineer - Frontend ⧉   02/2022 – 07/2024 | Bangalore, India
- Built responsive UI for Walmart using HTML5, CSS3, ReactJS, and ES6. Created modular, testable components and integrated **REST APIs**. Collaborated with backend and design teams to deliver feature-rich pages.
- Constant interaction with back-end and design teams on the execution of ideas and projects.
- Successfully completed **Walmart page migration** task by converting iframe-based content to SafeFrame architecture, ensuring secure and optimized content delivery.

Dotline Web Media Pvt Ltd, Web Developer ⧉   06/2020 – 01/2022 | Bangalore, India

- Developed responsive web user interfaces (UI) using HTML5, CSS3, JavaScript, jQuery and Bootstrap 4, while maintaining and enhancing website functionality by optimizing applications for maximum speed and performance.
- Conducted testing, debugging, and managed hosting servers to ensure smooth website operation.
- Installed and configured HTTP servers and associated operating systems to take websites live.

Skills

React JS | JavaScript | TypeScript | React Native | HTML5 | CSS3 | Redux | jQuery | SCSS | Git

Projects

TMDB Movie App ⧉
TMDB Movie App Built a responsive movie discovery web application using React.js, Redux, and Tailwind CSS, integrated with The Movie Database (TMDB) API to fetch trending movies, TV shows, and detailed information. Implemented features like dynamic search, category-based filtering, and state management for smooth user experience.

WMC Personal Care(Walmart Brand Page) ⧉
Developed and optimized responsive UI components using React.js and SCSS to enhance user experience on the Walmart brand site, integrating RESTful APIs for dynamic content and real-time data updates.

Education

Master of Science in Information Technology (MSc IT),   2017 – 2019 | Bangalore, India
Jain University ⧉

Bachelor of Science in Information Technology (BSc IT),   2014 – 2017 | Agartala, India
Tripura University ⧉
